

Interview Questions:

Hello, we are group of motivated students from all over the world that are working on an assignment for Cruyff foundation. The aim of the project is to motivate the students and to bring innovative technology in the games. We want to get your honest opinion about the Schoolyard 14, so we can develop the best possible product.

Could you introduce yourself

1. For how long you have been working in this school?
2. What is your opinion about the Cruyff foundation playground?
 - a. Are there any concerns or issues that you have noticed with the current playground games that could be addressed in the new playground design or new addition of games?
3. Is there anything that you would like to be improved?
4. Is there anything that would absolutely need to stay?
5. How can the playground games be adapted to accommodate children with different abilities and needs?
6. Is there enough space for all children to play at one time?
7. What do the kids in their free time? What are their interests?
8. If kids are playing outside, do you play with them or accompany them?
9. How long will they play? How often do they take breaks?

A/B testing

Now we would like you to show a couple of ideas of what we came up with as possible solutions. Could you give us your opinion about them?

Idea 1:

Idea 2:

Thank you very much for giving from your time and willingness to help. Is there something that you would like to add? If not, have a nice day.
